# FINTECH FOR LAWYERS, LEGAL PRACTITIONERS & COMPLIANCE PROFESSIONALS

8 hours remote learning

Held over 4 days

## THE COURSE AT A GLANCE

While the transformation of the financial services industry brings unprecedented opportunities, lawyers and compliance officers must be equipped with the necessary tools to understand the complex interaction of finance technology and regulation. Fintech brings with it democratisation, inclusion and disruption.

The emergence of fintech as a stand-alone sector has broadened the scope of roles for both banking and generalist lawyers. The compliance professional too, is playing in an entirely different world and needs to be apprised of the regulatory changes that fintech will demand.
