Are you unsure about the regulatory changes to the financial services industry that are being brought about by the new legislation?

The FSR Act implemented the "twin peaks model" for financial services regulation which provides for the establishment of two new regulators. The Insurance Act and the Conduct of Financial Institutions ("CoFI") Bill spell further changes to the industry. This webinar will provide a big-picture insight into all the relevant legislation and equip participants with an in-depth understanding of the legislation to allow them to be proactive in their approach to the twin peaks regulatory environment and make the appropriate changes within their organisations.
