

ENTREPRENEURSHIP FOR LEGAL PROFESSIONALS

10,5 hours remote lecturing

Held Wednesdays - over 7 weeks

THE COURSE AT A GLANCE

Most people know that they are unique, but many live and die without ever knowing how they are unique: i.e. their distinctive gifts, strengths, skills and resources.

Even for those who know, making the jump from knowledge to monetization can seem virtually impossible. This is also true of legal professionals – do you simply do it the way it has always been done, or do you use your entrepreneurial skills to disrupt the legal universe? This course is inspirational, informational and instructional. The intention is to motivate people to see what makes them exceptional and special, and to provide them with specific, actionable, practical steps to use it, leverage it - and make an impact and profit with it.
