"The goal is to turn data into information, and information into insight"

- Carly Fiorino

Legal analytics plays a critical role in examining a legal professionals work - and data aids legal professionals in making strategic legal decisions.

This course would benefit:

- Legal professionals (lawyers, paralegals, legal researchers) looking to integrate data analytics into their practice.
- Law students and recent graduates seeking to specialize in a rapidly growing, tech-driven area of law.
- Data analysts and IT professionals aiming to apply their skills in the legal sector.
- Legal tech entrepreneurs and innovators interested in developing or utilizing data-driven legal tools and services.

Presented by:

Leah Molatseli

Lawyer, Published Author and Legal technology and innovation specialist.
