With businesses struggling in our present economic circumstances, business rescue offers an alternative to liquidation and may give a company a second chance and save the jobs of its employees. South Africa has a strong need for skilled business rescue practitioners to meet the current demand.

This course is a summary of business rescue – a roadmap to business rescue law. It includes case law and the commercial and transactional (including M&A) aspects thereof.

Aimed at corporate lawyers, small business owners, compliance officers, risk managers, company secretaries, aspirant directors, board committee members, senior managers, and officers charged with governance duties in an organisation.

PRESENTED BY: Dr Justice Mudzamiri - LLB LLM LLD. Attorney of the High Court of South Africa
