# DATA GOVERNANCE IN AFRICA: REGULATIONS, POLICIES, INSTITUTIONS & TECHNOLOGIES

## PRESENTED ONLINE VIA ZOOM

| DATE | TIME | COURSE DURATION | COURSE FEE |
|---|---|---|---|
| 16 to 19 March 2026 | 13:30 to 16:30 SAST | 12 hours over 4 days | R6,600 per delegate<br>Includes any course materials. Full payment must be received 3 days before course starts. |

**Data is essential to the digital economy, AI, and digital public infrastructure. Legitimate and effective data governance requires coherent regulations, sound policies, capable institutions, and appropriate technologies.**

This course examines data governance as a dynamic system operating at national, regional, and continental levels. Participants will explore key policy issues including cybersecurity, privacy, economic inclusion, and personal data protection grounded in human rights, and how trusted data environments can advance the single digital market under the African Continental Free Trade Area.

Aimed at policymakers, data governance practitioners, trade lawyers, postgraduate students.

**PRESENTED BY:**

**Dr Andrew Rens** (Research ICT Africa)

**A/Prof Tobias Schonwetter** (UCT iNtaka Centre)

**Ms. Pria Chetty** (Research ICT Africa)
