An estate and financial plan has to incorporate not only the needs and preferences of the estate owner, but also the existing law, tax legislation and economic factors. All these factors have a bearing on each subsequent step in the process.

This course will provide the foundation for good estate planning and its culmination in a will, reflecting the true intention of the testator or testatrix. The course will illuminate the law and how these legal principles apply in practice, by means of a case study.

The course will benefit all practitioners (attorneys, financial and other advisers) and laymen, especially those seeking to broaden their horizons with regard to holistic estate planning and wills in South Africa. Also, lawyers who would like to update their knowledge.

PRESENTED BY: Renette Hendriks - Personal Trust: Director of Legal and Fiduciary Services
